BLUEMAX SUSPENSION gives PERFORMANCE, RELIABILITY and VALUE for MONEY

When the going gets tough, you need to know you have the most reliable products on your vehicle ranging from the BLUEMAX full suspension kits through to the high performance BLUEMAX form cell shock absorbers for all leading 4wd's.

Suspension Supplies Australia have also designed and manufactured leaf springs to improve the ride and performance of many truck suspensions and particularly in vehicles like Isuzu, Mitsubishi, Hino, Toyota and UD trucks.

Product Features & Benefits

BLUEMAX springs, shock absorbers and components have been manufactured for Australian conditions to SSA's strict specifications, thus ensuring they are the toughest and most reliable product available.

First class materials and precision design provide strength, endurance and better road handling when you need it most.

| | |
|-------------------------------|---|
| BLUEMAX LEAF SPRINGS: | Designed to maximise load carrying to improve stability and to Increase ride height. |
| BLUEMAX TORSION BARS: | Standard and large diameter bars improving road handling and reducing body roll and pitch. |
| BLUEMAX COIL SPRINGS: | Designed to give optimum handling and ride quality. Heavy duty models for better load carrying and ride height are available. |
| BLUEMAX SHACKLE AND PIN KITS: | Gold anodised for corrosion protection and greasable for longer life. Precision designed. |
| BLUEMAX SHACKLE BUSHES: | Made from superior quality urethane polymer for maximum durability. Complete bush kits for most 4WD vehicles. |
| BLUEMAX U BOLTS: | Gold anodized for corrosion protection. Supplied with deep nuts for improved clamping effects. |
| BLUEMAX SHOCK ABSORBERS: | Greater response and control with premier Foam Cell or Nitrogen gas charged shocks. Custom tuned valving for most models. Improved road holding and ride comfort. |
| BLUEMAX STEERING DAMPERS: | Designed to reduce steering shimmy and vibration that delivers a smoother off road driving feel. Heavy duty big bore options are available. |

Quality Guaranteed

All components are checked for quality and specification before acceptance and entering the warehouse inventory.
