

POLYURETHANE BUSHES

Do you know that the 4wd Bluemax Polyurethane bushes now supplied by Suspension Supplies Australia are 100% manufactured in Brisbane, Queensland, Australia.

The bushes are manufactured from Premium "PolyEther Material", they have superior hydrolytic stability and the dynamic properties are far superior than cheaper lower grade products which are manufactured from PolyEster based material (These are the bushings you see crumbling after a short period of time, there is a reason why they are cheap)

PolyEther products have a higher rebound rate making the bushings work in unison with OEM and Aftermarket suspensions systems.

WE ARE NOW OFFERING A 5 YEAR 100,000KM WARRANTY ON ALL 4WD & 2WD LEAF SPRING BUSHES

Some of the benefits of Polyurethane bushes include

- Performance Enhancing
- Improved Ride Control
- Reduced Tyre Wear
- Longer Lasting
- Overall Increased Safety
- Resistance to Abrasion
- Resistance to Chemicals, Oil & Grease
